

THERMAL BINDING

Thermal Binding

Produces neat flat documents secured by glue to the left edge. We can bind using either a 'full wrap-around cover' option with a capacity of up to 12mm (approx. 110 sheets), or a 'spine strip only' option with a binding capacity of up to 10mm (approx. 92 sheets).

(note: we do not recommend this type of binding for documents that are likely to be used very frequently due to its long-term durability)

WE ALSO SELL THERMAL BINDING MACHINES AND SUPPLIES IF REQUIRED
